

### AMENDMENTS TO THE CLAIMS

This listing will replace all prior versions and listing of claims in the application.

1. (Previously Presented) An antibody that is raised against and that recognizes an amino acid sequence that is present between the 180<sup>th</sup> and the 194<sup>th</sup>, or between the 237<sup>th</sup> and the 251<sup>st</sup> amino acid residues of SEQ ID NO: 1.

2. (Original) The antibody of claim 1, which is a monoclonal antibody.

3. (Canceled)

4. (Previously Presented) A pharmaceutical composition, which comprises the antibody of claim 1 or 2 as an active ingredient.

5. (Canceled)

6. (Currently Amended) The pharmaceutical composition of claim 4, which is effective against ~~at least one disease selected from the group consisting of~~ X-linked hypophosphatemic rickets, ~~and renal failure.~~

7.-19. (Cancelled)

20. (Previously Presented) An antibody produced by a hybridoma whose accession number is FERM BP-7838, FERM BP-7839, FERM BP-7840, or FERM BP-8268.

21. (Previously Presented) A pharmaceutical composition, which comprises the antibody of claim 20 as an active ingredient.

22. (Currently Amended) The pharmaceutical composition of claim 21, which is effective against at least one disease selected from the group consisting of X-linked hypophosphatemic rickets, hypophosphatemia, and osteoporosis ~~and renal failure.~~

23. (Currently Amended) An antibody which is competitive with the antibody produced by a hybridoma whose accession number is FERM BP-7838, FERM BP-7839, FERM BP-7840, or FERM BP-8268 upon binding with the polypeptide consisting of the amino acid sequence represented by SEQ ID NO: 1 and which can neutralize the FGF-23 activity.

24. (Previously Presented) A pharmaceutical composition, which comprises the antibody of claim 23 as an active ingredient.

25. (Currently Amended) The pharmaceutical composition of claim 24, which is effective against at least one disease selected from the group consisting of X-linked hypophosphatemic rickets, hypophosphatemia, and osteoporosis ~~and renal failure.~~
